

Soldier

You did your time. You saw some action, sure. You weren't the best there was. The brass didn't like you all that much. But, they didn't bust you out. And, life is boring after retirement. A little mercenary action wouldn't hurt. Surely there's someone out there who could use someone with your skills to protect someone,...or to hunt someone down.

Working a dirty job, living in a dirty apartment, with a dirty girlfriend. Or, lout boyfriend. It ain't enough. Time to get out.

You don't know anything about all of this paranormal magic crap. Or, maybe you do. Maybe a loved one or a friend had some sort of special gift. It doesn't matter so much. If there's a paycheck, some excitement, and the chance to get your toys out of the closet again, you're in.

Soldier

A former member of a nation's air, land, or sea military. Your character's recommended highest characteristics are:

Endurance, Strength, Education
(End, Str, Edu)

Step 1: Qualifications or Draft

Make the Qualifications check by rolling 2D6 and adding (or subtracting) the modifier for your character's Endurance. You must roll the indicated number or higher:

Qualifications 6+ (End)

If you succeed, go to **Step 2: Begin at Rank-0** for Soldier, next column.

If you fail, roll on the Draft table:

Draft

Roll	Career / School
1	Special Forces
2	Hunter
3	Drifter
4	Technician
5	Rogue
6	Vampire

and then go to **Step 2: Begin at Rank-0** of the playbook for the career or school you were drafted into.

Step 2: Begin at Rank-0

At starting Rank-0 you have the following skills:

- Wheeled Vehicle-0
- Linguistics-0 (your native language and English)
- Demolitions-0

Gun Combat-1 (cascade skill: select one component skill of the cascade from the "Skills List")

Note these on your character sheet under "Skills."

Step 3: Career Term

Proceed through a) Survival, b) Advancement, c) Special Op's, and d) Aging to complete one career term.

a) Survival

Make the Survival check by rolling 2D6 and adding (or subtracting) the modifier for your character's Dexterity. You must roll the indicated number or higher:

Survival 5+ (Str)

If you succeed the Survival check, choose one of the Skills Tables on the next page. You may only choose the Advanced Skills table if your character's Education is 8+. Then, roll 1D6 to gain one skill from the table you chose. Note your new skill on your character sheet.

Gaining Skills

Unless the skill indicates [Skill Name]-0 you receive a new skill at level 1: [Skill Name]-1. If your character already possesses a skill and you roll that skill again, increment that skill higher by one. For example, if you character has Recon-1 and you roll Recon again, your skill is now Recon-2. Gun Combat-0 becomes Gun Combat-1, etc.

If you fail the Survival check, you do not gain a skill, and you may not go to b) Advancement. Instead, proceed directly to c) Special Op's.

b) Advancement

Make the Advancement check by rolling 2D6 and adding (or subtracting) the modifier for your character's Education. You must roll the indicated number or higher:

Advancement 7+ (Edu)

If you succeed the Advancement check, choose one of the Skills Tables (Advanced Skills requires Edu 8+). Then, you may choose the new skill rather than rolling for it. Note your new skill. You also proceed one rank higher on the Rank & Skills table, below. Also note any new skill you receive if you reach Rank-3.

Rank & Skills

Rank	Rank Name & Skills
0	<i>Private</i> Wheeled Vehicle-0 Linguistics-0 Demolitions-0 Gun Combat-1
1	<i>Lieutenant</i>
2	<i>Captain</i>
3	<i>Major</i> Leadership-1
4	<i>Lt. Colonel</i>
5	<i>Colonel</i>
6	<i>General</i>

Regardless of whether you succeed the Advancement check, proceed to c) Special Op's.

c) Special Op's

Make the Special Op's check by rolling 2D6. You must roll the indicated number or higher:

Special Op's 6+

If you succeed, choose one of the Skills Tables (Advanced Skills requires Edu 8+). Then, roll 1D6 to gain one skill from the table you chose. Note your new skill.

Skills Tables*Personal Skills*

Cascade skills are shown in **bold**. Cascade skills are made up of two or more component skills. When your character receives a cascade skill, you must select one component skill of the cascade skill from the "Skills List."

d) Aging

Note your character's age. The character begins at age 18, but each career term lasts 4 years, so upon first completing this step your character is age 22.

You may either go to Step 4: Muster Out or enter a new career term by repeating a) Survival, b) Advancement, c) Special Op's, and d) Aging.

The maximum number of career terms you may attend without penalty is four. For the fifth term you may subtract your Strength score by 1 or lose 1 level in a skill. For the sixth term you may subtract your Dexterity score by 1 or lose 1 level in a skill. For the seventh term you may subtract your Strength and Dexterity scores each by 1 or lose 2 levels in any two skills. The absolute maximum number of career terms is seven.

Step 4: Muster Out

For each term served, you receive one roll of 1D6 on the Cash Benefits table. If your character is rank 4 or higher, add +1 to the roll. These credits may then be spent to purchase equipment for your character.

Cash Benefits

Roll	Credits
1	1,000
2	5,000
3	10,000
4	10,000
5	20,000
6	50,000
7	50,000

Also, for each term served, you may choose one benefit from the Material Benefits table. It helps to choose something for which your character has the correct skill. For instance, a Medical Kit may only be used adequately if the character has the Medical skill. Choosing a weapon makes the most sense if the character possesses the relevant weapon skill.

Material Benefits

Kiwi Junior Model-0 Laptop
Ranged Weapon (full ammo)
Medical Kit-1
Melee Weapon
Rope & Climbing Gear-1
Heavy Weapon (full ammo)
Wheeled Vehicle

Material benefits shown in **bold** are a category in "Equipment." Choose one item from that category in the "Equipment" chapter.

Step 5: Equipment & Encumbrance

Purchase any items you think your character might need for the adventure from "Equipment."

Calculate your character's Encumbrance Limit. This is 10+ your character's Strength DM. For instance, a character with a Strength of 9 has a Str DM of +1, for an Encumbrance Limit of 11. A character with a Strength of 5 has a Str DM of -1, for an Encumbrance Limit of 9. Note the Encumbrance Limit on the character sheet.

On the character sheet jot down the equipment's name, its encumbrance, and any notes about its use. If you have an Encumbrance Limit of 10, and your equipment totals up to an Encumbrance of 11 or higher, your character must take a -2 DM to all skill rolls.

Step 6: Combat Power

Calculate your character's Combat Power. Combat Power is an indication of how lethal your character is in combat. To calculate it, add up the following values:

Characteristic DM's for: Str + Dex + End

+

Skill Level/DM's for: Athletics + Gun Combat + Melee Combat + Heavy Weapons + Tactics

+

of dice of the single weapon possessed by the character which does the most damage + armor

Note your character's Combat Power on the character sheet.

Multiple Careers & Schools

After you Muster Out, you may make a Qualifications check for another career or school. But, there is a -2 DM to the roll. Also, aging effects and term limit rules as stated above apply to the new terms gained in the new career or school.
